Fred Cain tells us some very glowing tales of the wonderful growth and prosperity of Billings Montana. They tell us that a man does get windy as he reaches the short grass country. How is it Fred?

The runners had been scoured as bright as a new dollar, the bolts and screws all tightened and the sled placed behind the door in readiness for the first snow. But vacation was passing and every morning and every morning as the little boys and girls looked out of their window to see if the lady of the skies was picking her geese, they saw a clear sky and no snow. Tuesday morning however, the scene changed and the white flakes charged in great profusion upon the brown old earth. Down the hill the children went belly-buster and lickety-split, their faces glowing and their eyes bright. We heard one of them shouting, "Whoopee, didn't I tell you Dr. Yutzy would make it snow."

HOW IS YOUR WATCH RUNNING?

Is it always fast or slow? Never quite on time? Perhaps the watch is capable of very accurate running, but it is not in perfect order. You know the tiny mechanism of a watch absolutely demands that each of the dozens of little parts—springs, wheels, jewels etc.—be just right or good timing is out of the question. Watch repairing always has been a hobby of ours to do the best work possible.

Our charges are reasonable and our work is guaranteed. Bring your watch here and let us put it in perfect order for you.
